

Our Guarantee

We have a very simple product guarantee. If you are not completely satisfied with the quality and workmanship of your new fixture we will take it back. Let us know immediately of the problem and we will repair or replace the fixture at our expense. Each year, thousands of customers order our fixtures over the phone, on the internet or at one of the many trade shows throughout the year. They place their trust in our company to provide a quality product at a competitive price.

Our customer service staff is available to assist you in the selection of the many style, size, finish and glass options that will best fit your lighting needs. We are proud of our work and we want our customers to be proud owners of our fixtures.

Electrical-Safety-Quality

All of our fixtures are UL approved and wired for standard 110-120 volts. Each fixture is supplied with a high quality brass shell porcelain socket for medium base lamps.

When installing our fixtures, make sure they are properly grounded in accordance with local and national electrical codes. Be sure to use the proper wattage lamp to prevent heat build up.

We use the finest materials, brass, art glass, wiring and packaging to assure our customers a trouble free product.

We reserve the right to make changes in design and engineering to continue to improve the quality of our fixtures.

We invite you to visit our factory showroom located in the center of Orange County, just south of Los Angeles.

See first hand many of our fixture styles, finishes and glass options as well as take a factory tour to see how our fixtures are made.

Showroom Hours

Monday-Friday 9:00 to 4:30

Saturday 10:00 to 4:00
