

OLD CALIFORNIA
LANTERN COMPANY

Lighting for the Bungalow

New Products/Spring 2006

"Baldwin Avenue"

Handcrafted in copper with a solid bronze roof, this beautiful lantern will certainly become a treasured family heirloom.

The Peacock filigree finds its inspiration from an antique Batchelder tile and is individually hand hammered by our metal craftsmen. The graceful Peacock design is accented by heart shapes woven in the tail feathers and its three dimensional form is seemingly brought to life when backlit through the art glass panel.

"Moreton Bay Blvd."

A majestic tree with far reaching branches, the Moreton Bay Fig tree has a powerful presence in landscape and now in a captivating lantern.

Our new Moreton Bay Boulevard design captures an original antique filigree of an intriguing tree silhouette with a full canopy and raised roots. A mica panel accents the botanical theme.

"Cobblestone Lane"

The distinctive shape of the Eucalyptus leaf and the wind swept form of the Monterey Cypress combined with a graceful dancing Dragonflies creating a new series of lanterns that were truly inspired by nature.

Handcrafted in solid copper with hand applied rivets this series of fixtures is as much about art as light.

“Mariposa Street”

6-384-BZ-CH

380 Mariposa Street started as a custom lantern and has since become one of our most popular lanterns.

Available only as a column light in 4 sizes, this lantern has the characteristics of the Bungalow, Craftsman, and Prairie School designs all wrapped into a single lantern.

“Green Street”

Who doesn't love the magic of a full moon, as light softly caresses the trees or gracefully falls on a garden path?

Enjoy that dreamy mood inside your home thanks to our new Green Street table lamp.

“Spruce Street”

Originally designed by The Limbert Lamp and Furniture Company, this lamp was a defining feature at the Old Faithful Inn at Yellowstone National Park. In the craftsman tradition of “attention to detail”, an owl silhouette was thoughtfully placed among the spruce branches. Fable tells that the owls were found in only a selected few lamps. We have meticulously replicated this original design including a solid copper shade finished with hand applied rivets. Mica panels mimic a forest glow above a quarter sawn white oak base.
